Terminal Disclaimer

The terminal disclaimers filed on 8/23/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patents 6,607,019 and 6,267,167 have been reviewed and are accepted. The terminal disclaimers have been recorded.

Allowable Subject Matter

Claims 1-27 are allowed.

The prior art of record fails to suggest the claimed systems, particularly having an application apparatus having a cutting apparatus for cutting a first increment of a first length of adhesively coated material and for applying the first increment to a first portion of a semiconductor die mounting site of a the leadframe when the leadframe is at a first location and for cutting a second increment of a second length of adhesively coated material and for applying the second increment to the second location of a second portion of a semiconductor die mounting site of the leadframe after the leadframe has been subsequently indexed to a second location.

VanNortwick et al teach an apparatus for cutting and applying adhesive tape to a leadframe which includes two tape reels (44) for supplying double sided adhesive tape (54) and a tape cutter assembly (52) which receives the two lengths of tape and the leadframe (12) and has two cutters (82) for cutting the tape and applying the two lengths of tape simultaneously to the leadframe. The apparatus of VanNortwick is not configured for indexing the leadframe to one location, cutting and applying the first
